crash course european history viewing guide: Working Stiffs, Union Maids, Reds, and Riffraff Tom Zaniello, 2018-05-31 The revised and expanded edition of Working Stiffs, Union Maids, Reds, and Riffraff offers 350 titles compared to the original edition's 150. The new book is global in scope, with examples of labor films from around the world. Viewers can turn to this comprehensive, annotated guide for films about unions or labor organizations; labor history; working-class life where an economic factor is significant; political movements if they are tied closely to organized labor; production or the struggle between labor and capital from a top-down—either entrepreneurial or managerial—perspective. Each entry includes a critical commentary, production data, cast list, MPAA rating (if any), suggested related films, annotated references to books and websites for further reading, and information about availability of films for rental and/or purchase. This edition addresses both historical and contemporary films and features many more documentaries and hard-to-find information about agitprop and union-financed films. Working Stiffs, Union Maids, Reds, and Riffraff: An Expanded Guide to Films about Labor features fifty-eight production stills and frame enlargements. It also includes a greatly expanded Thematic Index of Films. Two new sections will help the reader discover labor films in chronological order or by nationality or affiliation with certain cinematic movements. To read Tom Zaniello's blog on the cinema of labor and globalization, featuring even more reviews, visit <http://tzaniello.wordpress.com>. Praise for the earlier edition—Zaniello has created a useful and far-reaching guide with abundant information.... These are the sorts of films that prove what James Agee wrote in these pages nearly fifty years ago: 'The only movies whose temper could possibly be described as heroic, or tragic, or both, have been made by leftists.'—The Nation Zaniello has done a monumental job identifying the films that should be included in this genre.... Working Stiffs, Union Maids, Reds, and Riffraff is sorely needed and long overdue.—Cineaste An engaging and opinionated book.... Even though mining, trucking, Jimmy Hoffa, and class warfare are the book's major themes, what holds the project together is Zaniello's sense of fun and wit. [Zaniello is] a better writer than most major film critics.—Village Voice Literary Supplement

crash course european history viewing guide: Neurotribes Steve Silberman, 2016-08-23

This New York Times–bestselling book upends conventional thinking about autism and suggests a broader model for acceptance, understanding, and full participation in society for people who think differently. “Beautifully told, humanizing, important.”—The New York Times Book Review “Breathtaking.”—The Boston Globe “Epic and often shocking.”—Chicago Tribune WINNER OF THE SAMUEL JOHNSON PRIZE FOR NONFICTION AND THE CALIFORNIA BOOK AWARD What is autism? A lifelong disability, or a naturally occurring form of cognitive difference akin to certain forms of genius? In truth, it is all of these things and more—and the future of our society depends on our understanding it. Wired reporter Steve Silberman unearths the secret history of autism, long suppressed by the same clinicians who became famous for discovering it, and finds surprising answers to the crucial question of why the number of diagnoses has soared in recent years. Going back to the earliest days of autism research, Silberman offers a gripping narrative of Leo Kanner and Hans Asperger, the research pioneers who defined the scope of autism in profoundly different ways; he then goes on to explore the game-changing concept of neurodiversity. NeuroTribes considers the idea that neurological differences such as autism, dyslexia, and ADHD are not errors of nature or products of the toxic modern world, but the result of natural variations in the human genome. This groundbreaking book will reshape our understanding of the history, meaning, function, and implications of neurodiversity in our world.
