- Selection Criteria and Nomination Process
- Notable Honorees and Their Contributions
- Impact on Careers and the Chicago Business Community
- How to Get Recognized on Crain's 40 Under 40 List

History and Overview of Crain's Chicago Business 40 Under 40

The Crain's Chicago Business 40 Under 40 list was established to recognize the most dynamic and influential young leaders in the Chicago metropolitan area. Since its inception, it has grown into one of the most respected honors for emerging professionals across diverse industries, including finance, technology, healthcare, real estate, and non-profit sectors. The list not only celebrates individual achievements but also highlights the collective energy and innovation fueling Chicago's economic growth. Over the years, Crain's has maintained a rigorous and prestigious standard, ensuring that only those who demonstrate outstanding accomplishments and leadership potential are included. The annual publication of this list serves as a platform for elevating the visibility of young changemakers, inspiring others within the business community.

Selection Criteria and Nomination Process

The selection process for Crain's Chicago Business 40 Under 40 is highly competitive and thorough, designed to identify candidates who exemplify excellence and leadership. Nominees must be under the age of 40 at the time of consideration and typically demonstrate significant achievements in their professional roles. Crain's invites nominations from industry peers, colleagues, and the public,

ensuring a wide pool of candidates from various sectors.

Evaluation Factors

Judges assess nominees based on several critical factors, including professional accomplishments, leadership abilities, community involvement, and potential for future impact. Innovation, influence within their field, and contributions to Chicago's business ecosystem are also considered. This multi-faceted evaluation ensures that recipients represent a balance of career success and civic engagement.

Nomination and Selection Timeline

The nomination period usually opens several months before the list's publication, allowing ample time for submissions and thorough vetting. A panel of Crain's editors and industry experts reviews the applications, narrowing down the candidates through multiple rounds of evaluation. Final selections are announced annually, often accompanied by detailed profiles showcasing each honoree's achievements.

Notable Honorees and Their Contributions

The Crain's Chicago Business 40 Under 40 list has featured numerous exceptional individuals who have made substantial contributions to their industries and communities. These honorees often become influential leaders, innovators, and changemakers well beyond their inclusion on the list.

Examples of Impactful Leaders

- **Entrepreneurs:** Young founders who have launched successful startups, disrupting traditional markets with innovative products and services.
- **Corporate Executives:** Rising executives driving growth and transformation within major corporations headquartered in Chicago.
- **Nonprofit Leaders:** Visionaries leading organizations that address social issues and improve community well-being.
- **Technology Innovators:** Professionals pioneering advancements in software, hardware, and digital solutions that propel Chicago's tech scene.
- **Real Estate Developers:** Developers reshaping city landscapes through sustainable and impactful projects.

Many of these individuals leverage their recognition to further their careers and expand their influence, becoming role models for aspiring professionals across the region.

Impact on Careers and the Chicago Business Community

Being named to Crain's Chicago Business 40 Under 40 can significantly enhance a professional's career trajectory. The accolade serves as a mark of prestige and credibility, opening doors to new opportunities, partnerships, and leadership roles. It also amplifies the honoree's voice within the business community, positioning them as thought leaders and advocates for innovation and growth.

Professional Benefits

Recognition on this list often leads to increased media exposure, invitations to exclusive networking events, and access to influential business circles. Many recipients use the platform to launch initiatives, attract investment, and influence policy discussions relevant to their industries.

Community and Economic Influence

Beyond individual advancement, the collective impact of the 40 Under 40 honorees contributes to Chicago's broader economic development. Their leadership fosters entrepreneurship, job creation, and social progress, reinforcing the city's status as a hub for talent and innovation.

How to Get Recognized on Crain's 40 Under 40 List

Achieving a spot on Crain's Chicago Business 40 Under 40 requires a combination of professional excellence, leadership, and community engagement. Candidates should focus on building a strong track record of accomplishments and cultivating a reputation for innovation and integrity within their fields.

Steps to Increase Eligibility

1. **Excel Professionally:** Demonstrate measurable success and impact in your career, whether through revenue growth, project leadership, or innovation.
2. **Engage in Leadership Roles:** Take on leadership positions within your organization or professional associations to showcase your influence.
3. **Contribute to the Community:** Participate in volunteer work, nonprofit boards, or initiatives that support Chicago's social and economic well-being.
4. **Build a Strong Network:** Foster relationships with peers, mentors, and industry leaders who can support your nomination.
5. **Seek Nomination:** Encourage colleagues or mentors to nominate you during the official submission period, ensuring your achievements are documented effectively.

Consistent dedication to these areas enhances the likelihood of earning a place on this distinguished list, providing valuable recognition within Chicago's competitive business environment.

crain s chicago business 40 under 40: Manager 3.0 Brad Karsh, Courtney Templin, 2013-06-24 This guide to rewriting the rules of management is perfect for millennials looking to achieve career and professional success. Millennials have begun moving into management positions everywhere and are shaking up the workplace as they go. The generation that was raised in an age of instant communication, and questioning authority has begun tearing down the corporate ladder, communicating on the fly, and bringing play to work. Even with all the exciting potential that lies ahead for these creative, bold thinkers, it will be pointless if they cannot effectively bridge the gap between the hierarchical management style of senior executives and the casual, collaborative approach of their peers. Manager 3.0 is the first management guide written exclusively for the Millennial generation, where you will learn how to master crucial skills such as: dealing with difficult people, delivering constructive feedback, and making tough decisions You will also gain insight into the four generations currently in the workplace and how they can successfully bring out the best in each. Packed with company interviews and corporate examples, Manager 3.0 will help these promising new managers connect with and encourage the unique talents of the generations around them, while also developing an effective leadership style of their own.

crain s chicago business 40 under 40: *The Difference "Difference" Makes* Deborah L. Rhode, 2003 Why are women so dramatically underrepresented in leadership positions in law, politics, and business?and what can be done to improve the situation? These are the questions this provocative book meets head-on.

crain s chicago business 40 under 40: Out and Proud in Chicago Tracy Baim, 2009-03-01 Out and Proud in Chicago takes readers through the long and rich history of the city's LGBT community. Lavishly illustrated with color and black-and white-photographs, the book draws on a wealth of scholarly, historical, and journalistic sources. Individual sections cover the early days of the 1800s to World War II, the challenging community-building years from World War II to the 1960s, the era of gay liberation and AIDS from the 1970s to the 1990s, and on to the city's vital, post-liberation present.

crain s chicago business 40 under 40: **Building the Illinois Innovation Economy** National Research Council, Policy and Global Affairs, Board on Science, Technology, and Economic Policy, Committee on Competing in the 21st Century: Best Practice in State and Regional Innovation Initiatives, 2013-05-06 Responding to the challenges of fostering regional growth and employment in an increasingly competitive global economy, many U.S. states and regions have developed programs to attract and grow companies as well as attract the talent and resources necessary to develop innovation clusters. These state and regionally based initiatives have a broad range of goals and increasingly include significant resources, often with a sector focus and often in partnership with foundations and universities. These are being joined by recent initiatives to coordinate and concentrate investments from a variety of federal agencies that provide significant resources to develop regional centers of innovation, business incubators, and other strategies to encourage entrepreneurship and high-tech development. Building the Illinois Innovation Economy is a study of selected state and regional programs to identify best practices with regard to their goals, structures, instruments, modes of operation, synergies across private and public programs, funding mechanisms and levels, and evaluation efforts. This report reviews selected state and regional efforts to capitalize on federal and state investments in areas of critical national needs. This review includes both efforts to strengthen existing industries as well as specific new technology focus areas such as nanotechnology, stem cells, and energy in order to improve our understanding of program goals, challenges, and accomplishments. As a part of this review, The Committee on Competing in the 21st Century: Best Practice in State and Regional Innovation Initiatives is convening a series of public

workshops and symposia involving responsible local, state, and federal officials and other stakeholders. These meetings and symposia will enable an exchange of views, information, experience, and analysis to identify best practice in the range of programs and incentives adopted. Building the Illinois Innovation Economy summarizes discussions at these symposia, fact-finding meetings, and commissioned analyses of existing state and regional programs and technology focus areas, the committee will subsequently produce a final report with findings and recommendations focused on lessons, issues, and opportunities for complementary U.S. policies created by these state and regional initiatives.

crain s chicago business 40 under 40: The Private Sector as a Catalyst for Health Equity and a Vibrant Economy National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Population Health and Public Health Practice, Roundtable on the Promotion of Health Equity and the Elimination of Health Disparities, 2016-09-24 A critical component of the nation's economic vitality is ensuring that all Americans can contribute and prosper. Such contributions presuppose an intentional focus on achieving the highest levels of health possible, which requires that conditions in communities, schools workplaces, and other settings promote health and address the social determinants of health for all community members. Many organizations, in both the private and public sectors, have been establishing partnerships to further healthy workplaces and health equity in general. Many are taking the lead in producing economic growth that is inclusive and responsive to the nation's diverse needs and populations. Increasingly, private&public partnerships are emerging as ways of doing business. Additionally, a variety of new developments in health, health care, and community benefits obligations that are part of the Affordable Care Act have contributed to this interest in economic growth and health and in the creation of new partnerships. To examine past successes and future opportunities, the National Academies of Sciences, Engineering, and Medicine held a workshop in November 2015. The workshop focused on the potential of the private sector to produce a triple bottom line: economic opportunity (including workforce development) and growth, healthy work and community environments, and improved employee health. At the same time, participants looked beyond the private sector to public&private partnerships and to public-sector actions that combine opportunities for economic growth and good health for all. This publication summarizes the presentations and discussions from the workshop.

crain s chicago business 40 under 40: Advertising Revolutionary Jason P. Chambers, 2024-02-06 The ad exec who revolutionized the image of Black Americans in advertising Over a forty-year career, Chicagoan Tom Burrell changed the face of advertising and revolutionized the industry's approach to African Americans as human beings and consumers. Jason P. Chambers offers a biography of the groundbreaking creator and entrepreneur that explores Burrell's role in building brands like McDonald's and Coca-Cola within a deeply felt vision of folding positive images of Black people into mainstream American life. While detailing Burrell's successes, Chambers tells a parallel story of what Burrell tried to do that sheds light on the motivations of advertising creators who viewed their work as being about more than just selling. Chambers also highlights how Burrell used his entrepreneurial gifts to build an agency that opened the door for Black artists, copywriters, directors, and other professionals to earn livings, build careers, and become leaders within the industry. Compelling and multidimensional, Advertising Revolutionary combines archival research and interviews with Burrell and his colleagues to provide a long overdue portrait of an advertising industry legend and his times.

crain s chicago business 40 under 40: The Riddle of Barack Obama Avner Falk, 2010-08-03 An internationally noted clinical psychologist offers readers the first psychological biography of Barack Obama. The Riddle of Barack Obama: A Psychobiography is the first complete psychological biography of President Barack Obama written by a professional clinical psychologist. Covering Obama's life to date, as well as the lives of his parents, grandparents, and other ancestors,

this fascinating volume illuminates the personal, professional, political, emotional, intellectual, and creative aspects of Obama's personality, as well as the motives—conscious and unconscious—for his beliefs and actions. Dr. Avner Falk draws on hundreds of biographies, newspaper and magazine articles, interviews, investigative reports, and more, using psychoanalytic models developed by Sigmund Freud, Donald Winnicott, Peter Blos, Heinz Kohut, and Schiffer to probe Obama's psychological development. Examining every facet of the president's biography, he delves into his earliest feelings of abandonment and helplessness, his inner conflicts, his protective relationship with his mother, his ambivalent identification with his father, and his quest for identity. Perhaps most intriguingly, Dr. Falk explores the psychological origins of Obama's fierce ambitions and the ingredients of his charisma.

crain s chicago business 40 under 40: *Developing Successful Global Strategies for Marketing Luxury Brands* Mosca, Fabrizio, Casalegno, Cecilia, Gallo, Rosalia, 2021-03-26 In recent times, the advent of new technologies, the concerns about sustainability, and the new tastes of the youngest generations of luxury consumers have affected the traditional dynamics of the luxury goods markets. These emerging issues have caused significant changes in the marketing of luxury goods. Sustainable development is not a new practice in the luxury market but is of increasing importance. The real challenge is for luxury companies to overcome the residual corporate social responsibility perspective to embrace a real integration of environmental, ethical, and social concerns into the corporate strategy. Integrated output and sustainable processes, the introduction of non-financial reporting as operational practice, and a new orientation to circular economy practices are emerging issues that still today request for a deeper exploration both on the academic and managerial point of view. Digitalization is another relevant issue that is reshaping the business model of luxury companies. Big data, blockchain, omnichannel experience, and digital customer experience represent the main digital challenges that luxury brand companies are facing nowadays. Luxury brands must keep up with these digital demands and sustainability concerns to maintain their position in the global market. *Developing Successful Global Strategies for Marketing Luxury Brands* upgrades the most relevant theoretical frameworks and empirical research about the marketing of luxury goods. This book is focused on contemporary issues affecting luxury industries such as digital transformation (blockchain, big data, analytics, innovation processes), sustainable development, changes in luxury consumers' behavior, integration between physical and online channels, and the development of social media marketing strategies. Chapters will cover areas of marketing, management, buyer behavior, and international business, creating a multidisciplinary approach for this book. This book is ideal for scholars, local government agencies and public bodies, managers, luxury business owners, along with practitioners, stakeholders, researchers, academicians, and students who are interested in emerging issues affecting the luxury market, such as sustainability and digital transformation.

crain s chicago business 40 under 40: *Obama, King of America* Tim Voigt, 2025-03-24 Barack Obama would take America by storm in 2008. He would rise out of nowhere and go on to election as the US President and win the Nobel Peace Prize. Here we will discuss his meteoric life and rise in various captions.

crain s chicago business 40 under 40: *Portico* , 1998

crain s chicago business 40 under 40: *Global Marketing Strategies for the Promotion of Luxury Goods* Mosca, Fabrizio, Gallo, Rosalia, 2016-03-31 Vast markets for high-symbolic-value goods serve as an expansive worldwide arena where luxury brands and products compete for consumer attention. As global luxury markets have grown and continue to grow, uncovering successful methods for maintaining brand image and consumer desire is critical to the success of high-end brands. *Global Marketing Strategies for the Promotion of Luxury Goods* explores the latest promotional trends, business models, and challenges within the luxury goods market. Focusing on strategies for achieving competitive advantage, new market development, as well as the role of the media in luxury brand building, this timely reference publication is designed for use by business professionals, researchers, and graduate-level students.

crain s chicago business 40 under 40: Goettsch Partners Jay Pridmore, 2007 Goettsch Partners' contemporary approach to architecture is explored through the projects superbly presented in this Master Architect monograph.

crain s chicago business 40 under 40: Social Innovation, Inc. Jason Saul, 2010-10-19 Could Wal-Mart offer a better solution to healthcare than Medicaid? Could GE help reduce global warming faster than the Kyoto protocol? Social Innovation, Inc. declares a new era where companies profit from social change. Leading corporations like GE, Wellpoint, Travelers and Wal-Mart are transforming social responsibility into social innovation and revolutionizing the way we think about the role of business in society. Based on four years of measuring the social strategies of America's leading corporations, Jason Saul lays out the five strategies for social innovation and offers a practical roadmap for how to get started. Explains the fundamental shift in the role of business in society, from social contract to social capital market Identifies the 5 social innovation strategies: submarket products and services, social points of entry, pipeline talent, reverse lobbying, and emotive customer bonding Offers step-by-step guidance for creating economic value through positive social change Social Innovation, Inc. is about making social change work for the business, and in turn staying relevant in the new economy.

crain s chicago business 40 under 40: Who's who Among African Americans , 2008

crain s chicago business 40 under 40: Microbiomes of the Built Environment National Academies of Sciences, Engineering, and Medicine, National Academy of Engineering, Division on Engineering and Physical Sciences, Health and Medicine Division, Division on Earth and Life Studies, Board on Infrastructure and the Constructed Environment, Board on Environmental Studies and Toxicology, Board on Life Sciences, Committee on Microbiomes of the Built Environment: From Research to Application, 2017-10-06 People's desire to understand the environments in which they live is a natural one. People spend most of their time in spaces and structures designed, built, and managed by humans, and it is estimated that people in developed countries now spend 90 percent of their lives indoors. As people move from homes to workplaces, traveling in cars and on transit systems, microorganisms are continually with and around them. The human-associated microbes that are shed, along with the human behaviors that affect their transport and removal, make significant contributions to the diversity of the indoor microbiome. The characteristics of healthy indoor environments cannot yet be defined, nor do microbial, clinical, and building researchers yet understand how to modify features of indoor environments—such as building ventilation systems and the chemistry of building materials—in ways that would have predictable impacts on microbial communities to promote health and prevent disease. The factors that affect the environments within buildings, the ways in which building characteristics influence the composition and function of indoor microbial communities, and the ways in which these microbial communities relate to human health and well-being are extraordinarily complex and can be explored only as a dynamic, interconnected ecosystem by engaging the fields of microbial biology and ecology, chemistry, building science, and human physiology. This report reviews what is known about the intersection of these disciplines, and how new tools may facilitate advances in understanding the ecosystem of built environments, indoor microbiomes, and effects on human health and well-being. It offers a research agenda to generate the information needed so that stakeholders with an interest in understanding the impacts of built environments will be able to make more informed decisions.

crain s chicago business 40 under 40: You Need To Be a Little Crazy Barry J. Moltz, 2008-12 This book debunks the myths of business start-ups by telling the truth: you have to be crazy to start a business. Written by serial entrepreneur Barry Moltz, the book delivers irreverent, straight talk about the complex intersection of start-up business, financial health, physical well-being, spiritual wholeness and family life. This perspective is augmented with other personal tales from the entrepreneurial front. The book offers tidbits of insight that will vaporize isolation, encourage self-reflection and refresh the spirit of anyone who has started a business or is thinking of starting

one.--Publisher description

crain s chicago business 40 under 40: Public Management Carolyn J. Hill, Laurence E. Lynn Jr, 2015-09-23 Managing in the public sector requires an understanding of the interaction between three distinct dimensions—administrative structures, organizational cultures, and the skills of individual managers. Public managers must produce results that citizens and their representatives expect from their government while fulfilling their constitutional responsibilities. In *Public Management: Thinking and Acting in Three Dimensions*, authors Carolyn J. Hill and Laurence E. Lynn, Jr. argue that one-size-fits-all approaches are inadequate for dealing with the distinctive challenges that public managers face. Drawing on both theory and detailed case studies of actual practice, the authors show how public management that is based on applying a three-dimensional analytic framework—structure, culture, and craft—to specific management problems is the most effective way to improve the performance of America's unique scheme of governance in accordance with the rule of law. The book educates readers to be informed citizens and prepares students to participate as professionals in the world of public management.
