Austin, H. Paul Grice, Harold Garfinkel and Erving Goffman. McCartan, 2025-09-17 When it was originally published in 1986, this book was one of the few to be written on social skills and mental health specifically for nurses. Yet it is nurses who are uniquely placed to improve the skills of those with mental illness since it is they who often have most contact with patients or clients. This book examines the place of social skills training in the practice of psychiatric nursing. It provides relevant background to the evidence for limited social skills in psychiatric patients and the expanding role of the nurse and considers more practical elements such as selection and assessment of patients for a programme, goal-setting, role play, feedback, and group versus individual approaches. The book also analyses relevant skills themselves, such as nonverbal communication and being assertive. The book is aimed at both trained and student psychiatric nurses.

i like your confidence 1975: *King of the Court* Aram Goudsouzian, 2010-05-01 Bill Russell was not the first African American to play professional basketball, but he was its first black superstar. From the moment he stepped onto the court of the Boston Garden in 1956, Russell began to transform the sport in a fundamental way, making him, more than any of his contemporaries, the Jackie Robinson of basketball. In *King of the Court*, Aram Goudsouzian provides a vivid and engrossing chronicle of the life and career of this brilliant champion and courageous racial pioneer. Russell's leaping, wide-ranging defense altered the game's texture. His teams provided models of racial integration in the 1950s and 1960s, and, in 1966, he became the first black coach of any major

professional team sport. Yet, like no athlete before him, Russell challenged the politics of sport. Instead of displaying appreciative deference, he decried racist institutions, embraced his African roots, and challenged the nonviolent tenets of the civil rights movement. This beautifully written book—sophisticated, nuanced, and insightful—reveals a singular individual who expressed the dreams of Martin Luther King Jr. while echoing the warnings of Malcolm X.

i like your confidence 1975: Greatness Dean Keith Simonton, 1994-05-21 This path-breaking work offers the first comprehensive examination of the important personalities and events that have influenced the course of history. It sheds light on the depth of potential in everyone, yielding important clues as to how we can take advantage of our own individual personality traits. Probing the lives of a range of important figures, the book explores the full range of phenomena associated with greatness, scrutinizing the significance of everything from genetic inheritance, intuition, aesthetic appreciation, and birth order, to formal education, sexual orientation, aging, IQ, and alcohol and drug abuse. This book will be of interest to anyone interested in the people and events that have helped shape the world, including mental health professionals and scholars studying psychological topics in the larger context of science, art, politics, and history. The book also serves as an engaging text for undergraduate psychology courses.

i like your confidence 1975: The Handbook of Cultural Linguistics Alireza Korangy, 2024-05-31 Bringing together a wide selection of work on cultural linguistics and pragmatics, this comprehensive handbook offers global, comparative insights into the field. Diversity does not always imply differences, but it also offers insights into surprising similarities and parallels when it comes to expressions. By the same token, this collection shows that when we see that linguistic differences, when they exist, stem from not merely language, but from the cultural and historical context that cultivates and nurtures them. Within that paradigm, then, this handbook locates the importance of philosophy, religion (or even the lack thereof), political affiliations, and so on, in forming expressions. In addition, comparisons with other models of cultural linguistics are undertaken. These trends provide readers with a comprehensive introduction to issues in cultural linguistics, addressing the peculiarities of the field under the rubric of localized studies, and speaking to the possibilities that exist in interpretation of what metaphors are. The book highlights the complexities that are so tightly interwoven into the fabric of every word and a sentence, across cultures and linguistic traditions. A must-have collection for anthropologists, philosophers, linguists, philologists, theoreticians, rhetoricians, and scholars of poetics, this is the one-stop reference in cultural linguistics.

i like your confidence 1975: Women and Leadership Genevieve Brown, Beverly J. Irby, 2001 While our culture aids and encourages men in their achievement, women are often discouraged. Women as a group have not been as successful as men in the fields which have traditionally been assigned achievement value. Common internal barriers for women include low confidence, perceived lack of advancement opportunities, poor self-image, and weak determination and motivation. Coupled with difficult experiences, such barriers can persuade some women to relinquish their aspirations for a career in administration. In various ways, both subtle and direct, our culture discourages women from expressing their intelligence. For some who weather the difficulties, the results can be highly confirming and motivating. As women strive to achieve professional success and recognition, they still feel societal pressure to assume more conventional roles. Although cultural sexism is a consistent theme in these women's stories, so are strength, determination and inspiration.
