i have a dream speech excerpt: Learning about our world and our past : using the tools and resources of geography and U.S. history : a report of the 1994 NAEP assessment , 1998

i have a dream speech excerpt: Learning about Our World and Our Past Evelyn K. Hawkins, 1998 This report summarizes results from the 1994 National Assessment of Educational Progress (NAEP), specifically those results concerning geography and U. S. history. The 1994 NAEP asked 4th-, 8th-, and 12th-grade students a series of questions designed to assess their knowledge level and skills applications in specific subjects. This report provides an in-depth look at the type of tasks that made up the assessments in geography and U. S. history and how the students performed on those tasks. It makes extensive use of examples of student work and of exercise-level statistics in examining performance in different skills areas and on particular assessment exercises. Specific attention is given to the ways that students use the tools and resources of history and geography. The questions reflected the content and cognitive dimensions deemed essential for an understanding of these subjects. One content dimension included four themes: change and continuity in U.S. democracy: ideas, institutions, practices, and controversies; the gathering and interaction of

peoples, cultures, and ideas; economic and technological changes and their relation to society, ideas, and the environment; and the changing role of the United States in the world. A second content dimension covers eight time periods: Three Worlds and Their Meeting in the Americas (beginnings to 1607); Colonization, Settlement, and Communities (1607 to 1763); The Revolution and the New Nation (1763 to 1815); Expansion and Reform (1801 to 1861); Crisis of the Union: Civil War and Reconstruction (1850 to 1877); Development of Modern America (1865 to 1920); Modern America and the World Wars (1914 to 1945); and Contemporary America (1945 to present). At every grade, the overall geography performance of males was higher than that of females; however, in U.S. history overall performances for males and females was significantly different at 12th grade only where males slightly outperformed females. In both subject areas, the performance of White students was higher than that of Black or Hispanic students. (MJP)

i have a dream speech excerpt: *Shaking the Gates of Hell* John Archibald, 2021-03-09 On growing up in the American South of the 1960s—an all-American white boy—son of a long line of Methodist preachers, in the midst of the civil rights revolution, and discovering the culpability of silence within the church. By the Pulitzer Prize-winning journalist and columnist for *The Birmingham News*. My dad was a Methodist preacher and his dad was a Methodist preacher, writes John Archibald. It goes all the way back on both sides of my family. When I am at my best, I think it comes from that sermon place. Everything Archibald knows and believes about life is refracted through the stained glass of the Southern church. It had everything to do with people. And fairness. And compassion. In *Shaking the Gates of Hell*, Archibald asks: Can a good person remain silent in the face of discrimination and horror, and still be a good person? Archibald had seen his father, the Rev. Robert L. Archibald, Jr., the son and grandson of Methodist preachers, as a moral authority, a moderate and a moderating force during the racial turbulence of the '60s, a loving and dependable parent, a forgiving and attentive minister, a man many Alabamians came to see as a saint. But was that enough? Even though Archibald grew up in Alabama in the heart of the civil rights movement, he could recall few words about racial rights or wrongs from his father's pulpit at a time the South seethed, and this began to haunt him. In this moving and powerful book, Archibald writes of his complex search, and of the conspiracy of silence his father faced in the South, in the Methodist Church and in the greater Christian church. Those who spoke too loudly were punished, or banished, or worse. Archibald's father was warned to guard his words on issues of race to protect his family, and he did. He spoke to his flock in the safety of parable, and trusted in the goodness of others, even when they earned none of it, rising through the ranks of the Methodist Church, and teaching his family lessons in kindness and humanity, and devotion to nature and the Earth. Archibald writes of this difficult, at times uncomfortable, reckoning with his past in this unadorned, affecting book of growth and evolution.

i have a dream speech excerpt: *Immigration* Thomas Cieslik, David Felsen, Akis Kalaitzidis, 2008-11-30 The uncomfortable contemporary realities of immigration, enmeshed as they are in economic, human rights, and national security issues, have once again propelled foreign immigration to the United States toward the top of the list of U.S. domestic policy concerns. Three respected authorities on immigration and international affairs here present a carefully calibrated history of U.S. immigration in primary source documents, tracing the roots of the current debate in the history of our profoundly divided and surprisingly cyclical response to foreign immigration. This book documents this national ambivalence, identifying the major waves of immigration and clarifying the ways in which the existing social and political fabric conditioned both the response to the newcomers and their prospects of eventual integration into American society. Part I introduces the historical record: • The early days of the Republic, when most immigrants arrived from northern Europe • The most important wave of immigration to the United States in the country's history, over 1880-1920, when most immigrants arrived from Asia or from southern and eastern Europe • Virulent post-World War I anti-immigration sentiment • The World War II-era absorption of huge numbers of displaced persons fleeing the misery and devastation of Europe • Transition from a quota system to a preference system • Heightened debate in the 1980s and 1990s • The immigration policy repercussions of the terrorist attacks of September 11, 2001 Part II takes up special issues in the contemporary immigration debate, including the security debate and immigration, immigration and the U.S. judiciary, the immigration debate and the economy, and the spectrum of public opinion on immigration revealed during the 2008 presidential election campaign. The authors demonstrate that today's highly polarized immigration reform debate in many respects recapitulates the antagonisms and chaotic policies of the 1980s and 1990s, when Ronald Reagan's Republican administration implemented an amnesty program while the state of California adopted the punitive Proposition 187. Paramount in today's immigration debate, however, are the homeland security concerns rendered acute by the 2001 bombing of the World Trade Center in New York City. The controversial USA PATRIOT Act of 2001 and the Homeland Security Act of 2002 are among the documents surveyed in relation to the contemporary immigration debate.
