- Experienced and Qualified Staff
- Patient Experience and Care Approach
- Insurance and Accessibility

Overview of Sutter Physical Therapy Sacramento

Sutter Physical Therapy Sacramento is part of the broader Sutter Health network, known for its dedication to quality healthcare services across Northern California. This facility focuses exclusively on physical therapy, providing expert rehabilitation to patients of all ages and needs. The center is equipped with modern technology and treatment modalities to address a wide spectrum of musculoskeletal and neurological conditions. Commitment to patient recovery and functional improvement is central to Sutter Physical Therapy Sacramento's mission.

Location and Facilities

The facility is conveniently located within Sacramento, making it accessible to residents throughout the metropolitan area. Equipped with state-of-the-art therapy equipment, the center offers a clean, safe, and welcoming environment that supports effective rehabilitation. Patients benefit from private treatment rooms and communal exercise areas designed to facilitate various therapy techniques.

Patient Demographics

Sutter Physical Therapy Sacramento serves a diverse patient population, including athletes, post-operative patients, elderly individuals, and those with chronic pain conditions. The center's ability to tailor treatment plans to specific patient needs contributes significantly to positive outcomes and patient satisfaction.

Services Offered

Sutter Physical Therapy Sacramento provides a comprehensive range of physical therapy services aimed at restoring mobility, reducing pain, and enhancing quality of life. These services are designed to treat acute injuries, chronic conditions, and to assist in postoperative rehabilitation.

Orthopedic Physical Therapy

This service focuses on musculoskeletal injuries such as fractures, sprains, strains, and post-surgical recovery. Therapists use manual therapy, therapeutic exercises, and modalities like ultrasound and electrical stimulation to promote healing.

Neurological Rehabilitation

Patients recovering from neurological events such as strokes, spinal cord injuries, or traumatic brain injuries receive specialized care. The therapy emphasizes restoring motor function, balance, coordination, and independence.

Pediatric Physical Therapy

For children with developmental delays or congenital conditions, pediatric physical therapy helps improve motor skills, strength, and coordination in a child-friendly environment.

Sports Rehabilitation

Targeting athletes, this program aids in recovery from sports-related injuries and focuses on performance enhancement and injury prevention techniques tailored to specific sports demands.

Specialized Treatment Programs

Sutter Physical Therapy Sacramento offers several specialized programs that cater to unique patient needs, ensuring targeted and effective therapy outcomes.

Post-Surgical Rehabilitation

Designed for patients recovering from surgeries such as joint replacements or ligament repairs, this program emphasizes safe and progressive restoration of strength and function.

Chronic Pain Management

Utilizing a holistic approach, this program includes physical therapy techniques combined with education and self-management strategies to help patients cope with conditions like arthritis or fibromyalgia.

Balance and Fall Prevention

Particularly beneficial for elderly patients, this program focuses on improving balance, strength, and coordination to reduce the risk of falls and related injuries.

Workplace Injury Rehabilitation

This service supports patients recovering from occupational injuries, aiming to restore function and facilitate a safe return to work through individualized treatment plans.

Experienced and Qualified Staff

The team at Sutter Physical Therapy Sacramento consists of licensed physical therapists, certified specialists, and supportive staff who are committed to delivering high-quality care. Continuous education and training ensure that therapists remain current with advancements in rehabilitation science.

Therapist Expertise

Each therapist brings specialized skills in areas such as orthopedic care, neurological rehabilitation, pediatric therapy, and sports medicine. This expertise enables tailored therapy programs that address the specific needs of every patient.

Multidisciplinary Collaboration

Therapists collaborate closely with physicians, occupational therapists, and other healthcare professionals within the Sutter Health network to provide coordinated and comprehensive care.

Patient Experience and Care Approach

Sutter Physical Therapy Sacramento prioritizes patient-centered care, ensuring that every treatment plan is personalized and responsive to individual goals and conditions. The facility also emphasizes education, empowering patients with knowledge about their conditions and prevention strategies.

Initial Evaluation and Treatment Planning

Upon first visit, patients undergo a thorough assessment to identify the root causes of pain or dysfunction. This evaluation informs the development of a customized treatment plan with clear objectives and measurable outcomes.

Therapy Sessions and Progress Monitoring

Treatment sessions often include a combination of hands-on therapy, guided exercises, and use of therapeutic equipment. Progress is regularly monitored and adjustments are made to optimize recovery trajectories.

Patient Education and Support

Educating patients on injury prevention, ergonomics, and home exercise programs is integral to sustaining long-term health and minimizing the risk of recurrence.

Insurance and Accessibility

Sutter Physical Therapy Sacramento accepts a variety of insurance plans, making quality rehabilitation accessible to a broad patient base. The facility also offers assistance with insurance verification and billing to reduce administrative burdens on patients.

Accepted Insurance Providers

- Medicare and Medicaid
- Major private insurance companies
- Workers' compensation coverage
- Auto insurance for injury claims

Appointment Scheduling and Accessibility

Flexible scheduling options, including early morning and evening appointments, accommodate patients' busy lifestyles. The facility is fully accessible, ensuring that patients with mobility challenges can receive care comfortably.

sutter physical therapy sacramento: Case Management in Healthcare Peggy Rossi, 1999 *Case Management in Health Care* is a comprehensive reference designed to educate nurses and other health care professionals on the processes involved in case management. This reference discusses interventions and collaboration efforts that are necessary to move the patient through the continuum of care. It explores the changes in case management and it explains the financial, legal, and service aspects of this field. It is appropriate for nursing students (undergraduate and graduate) as well as for practicing case managers. • Focuses on the most current topics that are based on the changes and trends in case management and health care. • Addresses health care policies, laws and regulations as they apply to a case manager's day-to-day responsibilities. • Presents the basics on health insurance and the alternate funding programs equipping case managers to become active advocates for their patients. • Explores the pitfalls and barriers frequently encountered when locating appropriate patient resources, and explains how to overcome them. • Discusses various levels of care and treatment settings outside the acute care setting (ex. skilled nursing facility and home health care). • Explains the increasing number of case management models that are being

used in various clinical settings. • Compares the roles and responsibilities of a utilization manager and a case manager, emphasizing the need for their collective efforts in providing quality patient care. • Case Management and Technology, focuses on systems support, technology tools and resources, meaningful reporting, using the Internet, and video conferencing in relation to effectively serving patients. • Quality Management for Case Managers, covers guidelines for quality management, organization standards and practices, accountability, increasing customer satisfaction, and measuring utilization and costs. • Audits, identifies auditing entities and discusses development of successful competency programs to meet regulatory standards specific to case management. • The Importance of Credentialing, discusses the significance of credentialing as the start of the quality process of an organization. • Discusses new modalities for case management such as demand management, care management, drug state management, and disability management. • Addresses the complexity of the moral and ethical issues facing today's case managers. • Includes content on worker's compensation, on-site vs. telephonic case management, and tools to improve the case management practice. • Tips and training tools for care givers are updated to include agencies, literature, and various web sites dedicated to care giving. • Expanded content on legal and legislative issues such as the Balanced Budget Act (BBA), Emergency Medical Treatment and Active Labor Act (EMTALA), and Health Insurance Portability and Accountability Act (HIPPA). • Provides current coverage of funding and insurance programs such as Medicare, Medicaid, Children's health coverage, Veteran's benefits, and TRICARE. • Content in Complex Care and Post Acute Care units have been expanded to include the latest advances in emergency care, hospice, and managing geriatric, transplant, mentally ill patients. • Each chapter begins with Objectives that list key points and focus the reader on essential content to better prepare them for learning. • Suggested Websites and Resources listed at the end of chapter provide reader with opportunity for further study and research. • End of Chapter Exercises (1-5 questions) promote active learning and application of pertinent content.

sutter physical therapy sacramento: *Plunkett's Health Care Industry Almanac 2006* Jack W. Plunkett, 2005-11 Plunkett's Health Care Industry Almanac is the only complete reference to the American Health Care Industry and its leading corporations. Whatever your purpose for researching the health care field, you'll find this massive reference book to be a valuable guide. No other source provides this book's easy-to-understand comparisons of national health expenditures, emerging technologies, patient populations, hospitals, clinics, corporations, research, Medicare, Medicaid, managed care, and many other areas of vital importance. Included in the market research sections are dozens of statistical tables covering every aspect of the industry, from Medicare expenditures to hospital utilization, from insured and uninsured populations to revenues to health care expenditures as a percent of GDP. A special area covers vital statistics and health status of the U.S. population. The corporate analysis section features in-depth profiles of the 500 major for-profit firms (which we call The Health Care 500) within the many industry sectors that make up the health care system, from the leading companies in pharmaceuticals to the major managed care companies. Details for each corporation include executives by title, phone, fax, website, address, growth plans, divisions, subsidiaries, brand names, competitive advantage and financial results. Purchasers of either the book or PDF version can receive a free copy of the company profiles database on CD-ROM, enabling key word search and export of key information, addresses, phone numbers and executive names with titles for every company profiled.
