**teacher assistant appreciation day: Smart Kids, Bad Schools** Brian Crosby, 2025-09-23 In Smart Kids, Bad Schools, award-winning author and educator Brian Crosby draws on his twenty years as a high school English teacher to offer a candid appraisal of why our schools are failing and what we must do to save them. Crosby's no-holds-barred critique of the broken education system leaves no stone unturned: he is unapologetic and uncompromising in his exposé of how teachers, administrators, unions, and parents all play a part in this national tragedy. Crosby offers 38 ideas to save America's future and his proposed remedies are revolutionary. He recommends bold measures, such as lengthening the school day and school year, forcing parents to volunteer at schools, abolishing homework, outlawing teachers unions, and cutting special education funding. The result is a book that is likely to inflame passions on all sides of the political spectrum, and, in the process, introduce new ideas to a debate that is in dire need of them.

**teacher assistant appreciation day:** What Can I Take Off Your Plate? Jill Handley, Lara Donnelly, 2024-08-28 Teacher burnout demands systemic solutions, not self-care. Learn what leaders can do to actively reduce frustration and provide real, sustaining support for all staff. With teachers across the board assuming additional responsibilities, stress and job dissatisfaction are more prevalent than ever. Widespread staff shortages, which further increase workloads, and budget directives that require everyone to do more with less continue to demotivate and erode morale. It's no wonder so many teachers choose to leave the profession—or that many who remain feel overworked and unappreciated. The proper response from principals and other school leaders is not to encourage so-called self-care but rather to take a systemic approach that focuses on the factors they can control: time, effort, and resources. To increase teacher retention and alleviate the compounded effects of teacher burnout, leaders need to ask less of their staff and offer them more. In What Can I Take Off Your Plate?, veteran educators Jill Handley and Lara Donnelly detail both the immediate steps you can take to triage your staff's emotional exhaustion and the big-picture structural changes you can make to reduce frustration, increase motivation, and support the whole teacher. You'll learn useful ways to \* Reduce initiative fatigue. \* Give the gift of time. \* Support from within the classroom. \* Foster and support a healthy work-life balance. \* Demonstrate appreciation. \* Infuse fun in the workplace. This book is for school leaders who are ready to treat burnout like the complicated challenge it is—and meet it with both focused action and the lasting, sustainable solutions it demands.
