Crosby's no-holds-barred critique of the broken education system leaves no stone unturned: he is unapologetic and uncompromising in his exposé of how teachers, administrators, unions, and parents all play a part in this national tragedy. Crosby offers 38 ideas to save America's future and his proposed remedies are revolutionary. He recommends bold measures, such as lengthening the school day and school year, forcing parents to volunteer at schools, abolishing homework, outlawing teachers unions, and cutting special education funding. The result is a book that is likely to inflame passions on all sides of the political spectrum, and, in the process, introduce new ideas to a debate that is in dire need of them.

Right before graduating high school, and setting off to capture their dreams, they decided to create a “time capsule”—a letter describing their fantasies for the future. In twenty years they’d meet and see if fantasy had met with reality. MATTIE: At forty, was the man of her dreams still miles away? DELLA: Her old prom dress no longer fit. Did her wedding ring? ERICA: Had seen the world, and found that Hell, home and loveall meant Haddes. SHAY: Now could she stop running from her fears? Hell’s Belles were back—and though they’d traded milkshakes for margaritas, one thing still remained the same: a whole lot of shaking was about to happen in Haddes!

teacher appreciation day 2025: Ad Nauseam Carrie McLaren, Jason Torchinsky, 2009-06-23 With the style and irreverence of Vice magazine and the critique of the corporatocracy that made Naomi Klein's No Logo a global hit, the cult magazine Stay Free!—long considered the Adbusters of the United States—is finally offering a compendium of new and previously published material on the impact of consumer culture on our lives. The book questions, in the broadest sense, what happens to human beings when their brains are constantly assaulted by advertising and corporate messages. Most people assert that advertising is easily ignored and doesn't have any effect on them or their decision making, but Ad Nauseam shows that consumer pop culture does take its toll. In an engaging, accessible, and graphically appealing style, Carrie McLaren and Jason Torchinsky (as well as contributors such as David Cross, The Onion's Joe Garden, The New York Times's Julie Scelfo, and others) discuss everything from why the TV program CSI affects jury selection, to the methods by which market researchers stalk shoppers, to how advertising strategy is like dog training. The result is an entertaining and eye-opening account of the many ways consumer culture continues to pervade and transform American life.

teacher appreciation day 2025: The Cursing Mommy's Book of Days Ian Frazier, 2025-08-22 Based on his widely read columns for The New Yorker, Ian Frazier's uproarious first novel, The Cursing Mommy's Book of Days, centers on a profoundly memorable character, sprung from an impressively fertile imagination. Structured as a daybook of sorts, the book follows the Cursing Mommy—beleaguered wife of Larry and mother of two boys, twelve and eight—as she tries (more or less) valiantly to offer tips on how to do various tasks around the home, only to end up on the ground, cursing, surrounded by broken glass. Her voice is somewhere between Phyllis Diller's and Sylvia Plath's: a hilariously desperate housewife with a taste for swearing and large glasses of red wine, who speaks to the frustrations of everyday life. Frazier has demonstrated an astonishing ability to operate with ease in a variety of registers: from On the Rez, an investigation into the lives of modern day Oglala Sioux written with a mix of humor, compassion, and imagination, to Dating Your Mom, a sidesplitting collection of humorous essays that imagines, among other things, how and

why you might begin a romance with your mother. Here, Frazier tackles another genre with his usual grace and aplomb, as well as an extra helping of his trademark wicked wit. The Cursing Mommy's failures and weaknesses are our own—and Frazier gives them a loving, satirical spin that is uniquely his own.
