teacher appreciation printable free: Beverly Hills Adjacent Jennifer Steinhauer, Jessica Hendra, 2025-09-23 During pilot season, June Dietz's husband Mitch Gold becomes another man—a man who doesn't notice her delicious Farmers Market homemade dinners, who mumbles responses around the tooth-whitening trays in his mouth, who is consumed with envy for his fellow television actors, who pants for a return phone call from his agent. And who wants to be married to an abject, paranoid, oblivious mess? Possibly not June, whose job as a poetry professor at UCLA makes her in but not of Los Angeles, with its illogical pecking order and relentless tribal customs. Even their daughter Nora's allegedly innocent world isn't immune from one upsmanship: while Mitch is bested for acting jobs by the casually confident (and so very L.A.) Willie Dermot, June is tormented by Willie's insufferably uptight wife Larissa and the other stay-at-home exercisers in the preschool. Could Rich Friend be the answer? Smart, age-appropriate, bookish—and a wildly successful television producer—Rich focuses on June the way nobody has since she moved to Los Angeles, and there's nothing for June to do but wallow in what she's been missing. But what's the next step? How does a regular person decide between husband and lover, family and fantasy? Set in a Los Angeles you haven't read about before, *Beverly Hills Adjacent* is that rare thing: a laugh-out-loud novel with heart.

teacher appreciation printable free: **Free School Teaching** Kristan Accles Morrison, 2012-02-01 Free School Teaching is the personal and professional journey of one teacher within the American educational system. Faced with mounting frustrations in her own traditional, middle school classroom and having little success in resolving them, Kristan Accles Morrison decided to seek out answers, first by immersing herself in the academic literature of critical education theory and then by turning to the field. While the literature on progressive education gave her hope that things could be different and better for students locked into America's traditional education system, she wanted to find a firsthand example of how these ideas played out in practice. Morrison found a radical free school in Albany, New York, that embodied the ideas found in the literature, and over a period of three months she observed and documented differences between alternative and traditional schools. In trying to reconcile the gap between those systems, Morrison details the lessons she learned about teachers, students, curriculum, and the entire conception of why we educate our children.
