teacher appreciation week food deals 2024: Counseling With Immigrants, Refugees, and Their Families From Social Justice Perspectives Patricia Arredondo, Mary L. Fawcett, Dawnette L. Cigrand, Sandra Bertram Grant, Rieko Miyakuni, Dariyan Adams, 2024-04-02 Immigrants and refugees continue to make enormous contributions to the economic, educational, and cultural richness of the U.S. They plan for and manage multiple changes to achieve goals for themselves and their families, and in the process, give back to the U.S. This book provides insight

for counselors working with immigrants and refugees and their families across the lifespan. Social justice and multicultural counseling competency frameworks ground this text, which is intended for counselors working in academic settings, conducting research, and practicing in different contexts. Because immigrants and refugees have various cultural heritages, immigration journeys, reasons for migrating, and presenting situations, counselors must be prepared to engage with individuals and families as unique clients. Descriptions of these contextual factors, including data and legislation, are included. This book will guide counselors in recognizing the additional steps they may need to take to account for culture, language, health status, relationships in place, and of course the priority issues (i.e., child's illness and/or school bullying) to be dealt with. Additionally, counselors will learn about the rationale for migration as well as the concentration camps that may be "home" to refugees for an indeterminate time. Counselors will read about losses that affect immigrant and refugee clients and how these "naturally" contribute to sadness, depression, anger, and self-isolation. teacher appreciation week food deals 2024: *Emotions in Crisis* Nina Margies, 2024-04-25 We usually speak of crisis in numbers: decline in purchasing power, rise in unemployment rates or decreasing levels of life satisfaction. But what do people feel when their supposed securities for their futures crumble? The stories of the young adults after the 2008 economic crisis in Spain provide us with answers. This book shows how their loss of future prospects led to feelings of uncertainty, anxiety, frustration and resentment, and how they dealt with these emotions. Combining the sociology of emotions with Bourdieu's practice theory, *Emotions in Crisis* analyses the impact of structural changes in society on individual and collective emotions. It shows that adapting to such changes involves 'emotion work' and highlights the different forms this work can take.
