teacher appreciation week 2024 deals: From the Jar of Blessings Shawn Wells, 2024-06-10 From the Jar of Blessings is a compilation of about 270 blessings and/or inspirational quotes that were sent to me by family and friends over a period of eleven years. I would write each blessing/quote on bright-colored squares of paper, fold them up, and put them in a big glass olive jar I have. For this book, I have taken each blessing and/or quote and written my thoughts about them. Some of the blessings/quotes are deeply personal while others are quite funny. This book reminds us that God sends us blessings and inspiration on a regular basis, whether it be a simple blessing such as a small act of kindness or a huge blessing such as sparing a life after what could have been a fatal accident. All too often, we are so busy that we don't take the time to focus on the blessings all around us. Some of the blessings in this book were sent to me by adults, and others were sent by kids. For some reason, kids have an easier time recognizing blessings. One boy sent in the following blessing: "I am thankful a boy in my class spoke up and stopped someone from bullying me." I was so blessed to know that there were students at the school who were willing to stand up for others.

Bullying is such a problem in our schools, and it is so important that children and adults stand up against it. The blessings/quotes in this book deal with topics such as Alzheimer's disease, caregiving, lack of finances, cancer, and many more. Hopefully, the blessings and/or quotes in this book will cause you to look at day-to-day life from a different perspective.

teacher appreciation week 2024 deals: Learning in Depth Kieran Egan, 2011-01-15 For generations, schools have aimed to introduce students to a broad range of topics through curriculum that ensure that they will at least have some acquaintance with most areas of human knowledge by the time they graduate. Yet such broad knowledge can't help but be somewhat superficial—and, as Kieran Egan argues, it omits a crucial aspect of true education: deep knowledge. Real education, Egan explains, consists of both general knowledge and detailed understanding, and in *Learning in Depth* he outlines an ambitious yet practical plan to incorporate deep knowledge into basic education. Under Egan's program, students will follow the usual curriculum, but with one crucial addition: beginning with their first days of school and continuing until graduation, they will each also study one topic—such as apples, birds, sacred buildings, mollusks, circuses, or stars—in depth. Over the years, with the help and guidance of their supervising teacher, students will expand their understanding of their one topic and build portfolios of knowledge that grow and change along with them. By the time they graduate each student will know as much about his or her topic as almost anyone on earth—and in the process will have learned important, even life-changing lessons about the meaning of expertise, the value of dedication, and the delight of knowing something in depth. Though Egan's program may be radical in its effects, it is strikingly simple to implement—as a number of schools have already discovered—and with *Learning in Depth* as a blueprint, parents, educators, and administrators can instantly begin taking the first steps toward transforming our schools and fundamentally deepening their students' minds.

You may find yourself in the midst of a storm right now. It is not easy; but praying, talking, and thinking about it has helped me to heal in ways I did not expect. I want to share that with you, my friend! Grab a pen, open this book, and let's heal together!

November 9 is set aside for Women Veterans Day in Alaska, while in Puerto Rico they honor baseball scout Pedrin Zorilla, and as the sun sets, New Jersey holds a Kristallnacht Memorial Night. This book is a detailed reference work about holidays and special observances established by statute in the United States, including American Samoa, the District of Columbia, Guam, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands. Because the United States is a member state of the United Nations, U.N.-designated holidays and longer periods of time, such as years and decades devoted to important world issues, are also included. Following the day-by-day section, holidays are listed chronologically within their jurisdictions (federally designated observances are first in the list; states and territories follow in alphabetical order). A subject index offers access to particular topics (nursing, education, peace...) and a name index indicates holidays celebrating the lives of individuals.

teacher appreciation week 2024 deals: Leading under Duress Jean-Pierre Bongila, 2024-11-15 This comparative study of teacher attrition in the Global South and OECD countries examines the exceptionality of twenty selected learning leaders in the D.R. Congo, Ghana, and Uganda who have stayed in the teaching profession and led their student learning with devotion and integrity. Like any learning leader, exceptional teachers live the challenges and pressures that have caused some of their peers to leave the profession. The extraordinary learning leaders – from elementary, secondary, and higher education - have stood victorious amid education devaluations and professional tensions. The author gives voice to those “exceptional” teachers and analyzes the ethical rationale behind their unfailing commitment to their teaching vocation. Their teaching philosophies and personal accounts revealed altruistic impulses. This book further explores the exceptional teachers’ narratives and their selfless actions through the lens of philanthropic and leadership ethics theories. Although the exceptional teachers’ altruism appears self-sacrificing - it embodies some form of self-benefit because one can hardly fathom altruism for altruism’s sake. Nevertheless, the twenty exceptional teachers acted in a self-sacrificing manner. The author appeals to the Global South countries to implement education policies that should redecorate the profession of learning leadership.
