teacher book character dress up day: Jumbo Book of Teacher Tips and Timesavers

Denise Dodds Harrell, 1999

teacher book character dress up day: *Becoming a Reading Teacher* Jane Spiro, Amos Paran, 2023-04-10 This book encourages readers to think about reading not only as an encounter with written language, but as a lifelong habit of engagement with ideas. We look at reading in four different ways: as linguistic process, personal experience, collective experience, and as classroom practice. We think about how reading influences a life, how it changes over time, how we might return at different stages of life to the same reading, how we might respond differently to ideas read in an L1 and L2. There are 44 teaching activities, all founded on research that explores the nature, value and impact of reading as an authentic activity rather than for language or study purposes alone. We consider what this means for schools and classrooms, and for different kinds of learners. The final part of the book provides practical stepping stones for the teacher to become a researcher of their own classes and learners. The four parts of the book offer a virtuous join between reading, teaching and researching. It will be useful for any teacher or reader who wishes to refresh their view of how reading fits in to the development of language and the development of a reading life.

teacher book character dress up day: *The Art of Teaching Children* Phillip Done, 2023-07-18

An essential guide for teachers and parents that's destined to become a classic, *The Art of Teaching Children* is one of those rare and masterful books that not only defines a craft but offers a magical reading experience. After more than thirty years in the classroom, award-winning teacher Phillip Done decided that it was time to retire. But a teacher's job is never truly finished, and he set out to write the greatest lesson of his career: a book for educators and parents that would pass along everything he learned about working with kids. From the first-day-of-school jitters to the last day's tears, Done writes about the teacher's craft, classrooms and curriculums, the challenges of the profession, and the reason all teachers do it—the children. Drawing upon decades of experience, Done shares time-tested tips and sage advice: Real learning is messy, not linear. Greeting kids in the morning as they enter the classroom is an important part of the school day. If a student is having trouble, look at what you can do differently before pointing the finger at the child. Ask yourself: Would I want to be a student in my class? When children watch you, they are learning how to be people, and one of the most important things we can do for our students is to model the kind of people we would like them to be. Done tackles topics you won't find in any other teaching book, including Back to School Night nerves, teacher pride, the Sunday Blues, Pinterest envy, teacher guilt, and the things they never warn you about in "teacher school" but should, like how to survive recess duty, field trips, and lunch supervision. Done also addresses some of the most important issues schools face today: bullying, excessive screen time, the system's obsession with testing, teacher burnout, and the ever-increasing demands of meeting the diverse learning needs of students. But *The Art of Teaching Children* is more than a guide to educating today's young learners. These pages are alive with inspiration, humor, and tales of humanity. Done welcomes us like visitors at Open House Night to the world of elementary school, where we witness lessons that go well and others that flop, periods that run smoothly and ones that go haywire when a bee flies into the room. We meet master teachers and new ones, librarians and lunch supervisors, principals and parents (some with too much time on their hands). We get to know kids who want to hold a ball and those who'd rather hold a marker, students with difficult home lives and children with disabilities, youngsters who need drawing out and those who happily announce (in the middle of a math lesson) that they have a loose tooth. With great wit and wisdom, irresistible storytelling, and boundless compassion, *The Art of Teaching Children* is the new educator's bible for teachers, parents, and all who work with kids and care about their learning and success.

teacher book character dress up day: *Two Dimes a Day* Robert B. McClintic, 2022-11-03

As I was contemplating writing this book, after much encouragement from family over the years, I wasn't sure about undertaking the task. I wrestled with these thoughts most of one night, and by morning, I knew how to solve my dilemma. I got down on my knees beside the bed and prayed for God to give me a sign to prompt my decision. Later that day, my wife, Nellie, and I were at Wendy's drive-through for lunch when Nellie stepped out of the vehicle, reached down on the ground, picked something up, and said to me, "I got you something," as she placed two dimes in the palm of my hand. I had not told her about my prayer and definitely had not told her that the title of the book, if I wrote it, would be *Two Dimes a Day*. I first started to laugh then the tears came, and she said, "What's wrong?" I said, "Do you know the title of my book?" She said, "No." Divine intervention at His best! My memories of living with addiction began at the age of three. My father was well educated, attended Marshall University, and was a very talented journalist and linotype operator, working for numerous newspapers on the East Coast, including the Washington Post and the New York Times. Our lives should have been very normal and happy; however, his extreme addiction to alcohol quickly destroyed any sense of normalcy. My mother did everything humanly possible to keep our family intact; however, a broken home became evident. At the age of three and five, my brother, Billy, and I were immediately thrust into survival mode. Thanks be to God for His divine intervention into our lives. Also, thank God for Blanche McClintic, my dad's first cousin, who instilled a solid biblical foundation into our lives at a very young age. This foundation still

sustains us today.
