teacher and student sec: The Fear of Child Sexuality Steven Angelides, 2019-08-28 Continued public outcries over such issues as young models in sexually suggestive ads and intimate relationships between teachers and students speak to one of the most controversial fears of our time: the entanglement of children and sexuality. In this book, Steven Angelides confronts that fear, exploring how emotional vocabularies of anxiety, shame, and even contempt not only dominate discussions of youth sexuality but also allow adults to avoid acknowledging the sexual agency of young people. Introducing case studies and trends from Australia, the United Kingdom, and North America, he challenges assumptions on a variety of topics, including sex education, age-of-consent laws, and sexting. Angelides contends that an unwillingness to recognize children's sexual agency results not in the protection of young people but in their marginalization.

Yang, Jiesi Guo, Ricci W. Fong, 2025-07-16 This book examines the needs, psychological agents, practices and interventions that are pertinent to developing social and emotional competence among students with diverse needs in the 21st century. It attends to a range of contemporary developmental issues, strategies, and sociocultural contexts that have been much overlooked in the special and inclusive education arena, by showcasing a series of empirical, meta-analytical and review papers. While much has been written about various types of special educational needs, this book takes a broader view of the discipline by capturing topics that are not only related to students with special educational needs, but also those related to twice-exceptional students, left-behind children of Chinese migrant parents, sexually-diverse students, and students who are disadvantaged in various ways. It focuses on developing social and emotional well-being among diverse learners for the 21st century. Contemporary issues such as developing students' adaptability, addressing sexuality issues in school, promoting teachers' emotional well-being, nurturing talents and supporting left-behind children are challenges that researchers, educators and policymakers have to attend to in the coming decades. This book offers valuable insights into addressing some of these key 21st century challenges in special and inclusive education. Showcasing an Asian perspective, this book opens readers to empirical findings, issues and practices beyond the Anglosphere. Taken together, this book is a valuable addition to readers' collections within the spectrum of practices and perspectives offered by scholars and practitioners from both Western and Asian contexts. teacher and student sec: Sexing the Teacher Sheila Cavanagh, 2007-05-10 Sexing the

Teacher is a provocative study of public and professional responses to female teacher sex scandals in Canada, the United States and Britain. Sheila Cavanagh examines the moral and professional panic over sexual transgressions in the educational milieu by analyzing several sensationalized legal cases, including Mary Kay Letourneau, Amy Gehring, and Heather Ingram. Deploying queer theory, psychoanalysis, postcolonial theory, and feminist film theory, Cavanagh analyses deep-seated anxieties about white female teacher sexualities and offers a critique of the damage that gets done in the name of child protectionism. Arguing that foundational assumptions about race, gender, class, sexuality, and family are all central to the panic, Cavanagh questions the conventional wisdom and politics governing our conceptualization of sex scandals in education. She also demonstrates that public upset over female teacher sexual transgressions, ostensibly about child welfare, is also about the regulation of gender, heteronormative, and white reproductive futures: a hidden curriculum in Western educational systems. Timely, original, and controversial, Sexing the Teacher will appeal to scholars and students in education, sociology, gender, sexuality, and cultural studies, as well as to general readers interested in the sensationalism over school sex scandals that has dominated recent headlines.

Wilkinson, Cora B. Marrett, 2013-10-22 Educational Psychology Series: Gender Influences in Classroom Interaction compiles papers presented at a conference funded by the National Institute of

Education and held at the Wisconsin Center for Education Research, University of Wisconsin—Madison in October 1983. A diversity of issues that have a bearing on gender-related influences, such as contextual factors and teacher and student characteristics, from both theoretical and empirical perspectives are also deliberated. This compilation is addressed primarily to researchers, but is also useful to teachers, educational policy makers, and others who want to insure every child, regardless of gender or other status, the opportunity of a rewarding and challenging education.

teacher and student sec: The Right to Sex Amia Srinivasan, 2021-09-21 “Laser-cut writing and a stunning intellect. If only every writer made this much beautiful sense.” —Lisa Taddeo, author of *Three Women* “Amia Srinivasan is an unparalleled and extraordinary writer—no one X-rays an argument, a desire, a contradiction, a defense mechanism quite like her. In stripping the new politics of sex and power down to its fundamental and sometimes clashing principles, *The Right to Sex* is a bracing revivification of a crucial lineage in feminist writing: Srinivasan is daring, compassionate, and in relentless search of a new frame.” —Jia Tolentino, author of *Trick Mirror: Reflections on Self Delusion* Thrilling, sharp, and deeply humane, philosopher Amia Srinivasan's *The Right to Sex: Feminism in the Twenty-First Century* upends the way we discuss—or avoid discussing—the problems and politics of sex. How should we think about sex? It is a thing we have and also a thing we do; a supposedly private act laden with public meaning; a personal preference shaped by outside forces; a place where pleasure and ethics can pull wildly apart. How should we talk about sex? Since #MeToo many have fixed on consent as the key framework for achieving sexual justice. Yet consent is a blunt tool. To grasp sex in all its complexity—its deep ambivalences, its relationship to gender, class, race and power—we need to move beyond yes and no, wanted and unwanted. We do not know the future of sex—but perhaps we could imagine it. Amia Srinivasan's stunning debut helps us do just that. She traces the meaning of sex in our world, animated by the hope of a different world. She reaches back into an older feminist tradition that was unafraid to think of sex as a political phenomenon. She discusses a range of fraught relationships—between discrimination and preference, pornography and freedom, rape and racial injustice, punishment and accountability, students and teachers, pleasure and power, capitalism and liberation. *The Right to Sex: Feminism in the Twenty-First Century* is a provocation and a promise, transforming many of our most urgent political debates and asking what it might mean to be free.

teacher and student sec: Art's Teachings, Teaching's Art Tyson Lewis, Megan Laverty, 2015-08-28 This volume examines the interface between the teachings of art and the art of teaching, and asserts the centrality of aesthetics for rethinking education. Many of the essays in this collection claim a direct connection between critical thinking, democratic dissensus, and anti-racist pedagogy with aesthetic experiences. They argue that aesthetics should be reconceptualized less as mere art appreciation or the cultivation of aesthetic judgment of taste, and more with the affective disruptions, phenomenological experiences, and the democratic politics of learning, thinking, and teaching. The first set of essays in the volume examines the unique pedagogies of the various arts including literature, poetry, film, and music. The second set addresses questions concerning the art of pedagogy and the relationship between aesthetic experience and teaching and learning. Demonstrating the flexibility and diversity of aesthetic expressions and experiences in education, the book deals with issues such as the connections between racism and affect, curatorship and teaching, aesthetic experience and the common, and studying and poetics. The book explores these topics through a variety of theoretical and philosophical lenses including contemporary post-structuralism, psychoanalysis, phenomenology, critical theory, and pragmatism.
