teacher appreciation in spanish: Language Attrition among Immigrant Teachers of Spanish
Ivonne Lerner, 2025-02-14 Language Attrition among Immigrant Teachers of Spanish is the first book devoted entirely to Spanish language attrition in all language areas and specifically among language professionals. Based on original research awarded the ASELE-Routledge prize in 2022, this volume presents an interdisciplinary and pioneering study on native language attrition among Spanish L1 immigrants in Israel, though its insights can be easily applied in any immigration setting. It focuses on the challenges faced by immigrant foreign-language instructors teaching their L1 (first language). Integrating both quantitative and qualitative data, the study explores Spanish language attrition in a multilingual and multicultural context like Israel, offering innovative insights and suggestions for future research. Language Attrition among Immigrant Teachers of Spanish also contributes to the native/non-native language teacher debate from the unique perspective of attrition, proposing a workshop for teachers alongside its research findings. This volume is an essential resource for researchers and postgraduate students of applied linguistics with a specific interest in language attrition or sociolinguistics. It will also be of interest to foreign language teachers and teacher trainers.

teacher appreciation in spanish: Empowering Students Through Multilingual and Content Discourse Finley, Stacie Lynn, Correll, Pamela, Pearman, Cathy, Huffman, Stephanie, 2023-07-25 Empowering Students Through Multilingual and Content Discourse is a peer-reviewed research book that challenges the traditional monolingual classroom approach, where the teacher's voice dominates and only the dominant culture's language is considered the path to success. The book aims to empower students by creating classroom spaces where all voices are heard, valued, and empowered. It draws on research from scholars who study discourse and offers insights into how discourse can be used to promote language and literacy development, honor all students' voices, and empower them. This book also provides guidance on culturally and linguistically sustaining discourse practices and encourages educators to incorporate students' home languages and discourse practices in classroom instruction. It challenges educators to move away from centering White English and represent language more responsibly within the classroom. This research is a valuable resource for academic scholars and a useful tool for teachers looking to cultivate student-centered classroom practices. By encouraging discourse among students, educators can create a space where human life holds meaning, and students feel empowered to act and use their voices.

teacher appreciation in spanish: Latino Students in American Schools Valentina Kloosterman, 2003-08-30 The purpose of this book is to provide a comprehensive historical and contemporary view of the education of Latinos in the United States. It is unique in that it provides readers with accurate information that will deepen their understanding and knowledge about Latinos from preschool to higher education, as well as in special education, gifted education, and migrant and urban education. Topics such as bilingualism and teacher preparation are an integral part of this thorough and eloquent book. Among culturally and linguistically diverse groups in the United States, the Latino population is the largest and fastest growing. Thus, to prepare for the growing numbers of Latino children and to make the most of their education, educators, researchers, and policymakers must recognize and build on the invaluable resource represented by Latino students. The information provided is based on current research and practice in the field. Our school system continues to underestimate the cognitive and socioemotional potential of Latino students by its limited awareness and representation of the Latino cultural characteristics, social dynamics, interests and abilities, bilingualism, as well as confronting socioeconomic challenges and educational needs. This situation clearly demonstrates a need for a reformulation of educational practice at all grade levels and for the provision of accurate information to assist practitioners and researchers in their knowledge and practice.
